

# you're looking at the leaders of the Pack

Student leaders (left to right) Josh Hitzemann, president of the Engineers' Council; Anup Shah, president of the senior class; Thushan Amarasiriwardena, co-editor of the *Technician*; and Erich Fabricius, president of the Student Senate, are all students in the College of Engineering. (Photo by Roger Winstead).

You see before you four computer science and engineering students. But what you're also looking at is the leadership of student life at North Carolina State University. This year, four top leadership positions are all held by students from the College of Engineering — presidents of the Student Senate, Engineers' Council, and senior class, and the *Technician* editor. Although their backgrounds and goals vary, they share a dedication to excellence typical of NC State's student achievers. Dedication to excellence and the leaders of the Pack — a winning combination for NC State.

Thushan S. Amarasiriwardena  
Technician Co-Editor

computer science student, political science minor, published writer, web designer, graphic designer, startup company president and cofounder
