Welcome to Transfer Student Orientation!

Go ahead – give yourself a round of applause. You’ve done a wonderful job in your college courses, excelling both inside and outside the classroom. Now, it’s time to begin the next chapter of your life as you pursue a degree in engineering. Transfer students are a valuable part of our NC State community and we look forward to your success!

From the moment you begin Orientation to the time you turn your tassel at graduation, dedicated faculty and staff are here to help ensure your success. Our students don’t journey alone.

To get started, we’re providing this orientation guide to give you a jump start on College of Engineering transfer orientation. Our hope is that you will review the information carefully, noting your important questions along the way so that we can address them during the College of Engineering transfer orientation session. We understand that you may have some concerns, but we do ask that you hold ALL questions for your orientation session. College of Engineering advisors will not be able to address individual concerns by email in a timely fashion. And, odds are, if you have a question, another transfer student will too. Asking these questions together as a transfer cohort at the College of Engineering transfer orientation will be the most effective way to disseminate important information.

We can’t wait to see how you’ll make a difference.

Best wishes for a successful fall semester!

The NC State Engineering Team

Student success — your success — is our number one priority.

Welcome to NC State!

You have arrived on campus at an exciting time for the College of Engineering. There are big shoes to fill. The students who have come before you have gone on to become CEOs, astronauts and leading researchers. They have turned their ideas into life-changing products through undergraduate research and senior design projects. They study and serve abroad, representing the College and becoming globally minded problem solvers. Now, it's your turn.

Our faculty and staff are fully engaged in preparing you — the next generation of engineers — to solve the Grand Challenges for Engineering for the 21st century identified by the National Academy of Engineering. They include vital tasks like providing access to clean water, securing cyberspace, restoring urban infrastructure and engineering better medicines.

You have been accepted into one of the top colleges of engineering in the nation. NC State is one of the only colleges of engineering in the country to lead two National Science Foundation Engineering Research Centers — the FREEDM Systems Center and the ASSIST Center — at once. Our faculty members are playing a major role leading the PowerAmerica Next Generation Power Electronics National Manufacturing Innovation Institute, which will spur the development of wide bandgap semiconductor technology.

Our faculty and students are developing a smarter power grid and inventing wearable health monitoring systems. They are tackling cancer, working to keep nuclear weapons out of the wrong hands and improving sanitation in the Third World. If being in the middle of this kind of important work sounds like fun, you have come to the right place.

Ahead of you are challenging courses taught by leading faculty that will inspire you and help you to think differently. It will mean long hours and intense studying, but you’ll come away with an engineering degree that will prepare you for whatever awaits you in the next phase of your life.

While you are here, I encourage you to enjoy everything that college life has to offer, including the chance to make lifelong friends. You’ll be spending the next few years in an area acknowledged on many lists and by many publications as one of the best in the United States in which to live. Centennial Campus and the amazing James B. Hunt Jr. Library are some of the best university facilities in the world.

From internships to study-abroad and service opportunities, your time on campus is sure to help you develop your full potential.

It’s a transformative journey, and it all starts here.

Louis A. Martin-Vega, Ph.D.
Dean

A College of Engineering Academic Affairs advisor only advises transfer students in "special" cases. Examples include a student with only 3 hours of English composition, but with the accelerated version, or a student with international credits or GEP credit from non-NC Community College institutions. You should only contact an Academic Affairs advisor for these transfer-specific issues after your transfer orientation session.

www. engr. ncsu. edu/ about/ contact/ aa- contact

All engineering departments have a Coordinator of Advising. Though this person may not advise all students in the department, (s) he oversees academic advising in that department. You may be assigned this person as your advisor or you may be assigned a faculty member as your advisor. Regardless, the departmental Coordinator of Advising is the expert advisor for your specific engineering curriculum and may be contacted with questions. Either the departmental Coordinator of Advising or an assigned departmental faculty member will be your official academic advisor until you graduate.
DATES AND TERMS
CHECKLIST | FALL 2017

July
- [✓] Transfer Student Orientation
- [✓] Register for fall classes
  studentservices.ncsu.edu/calendars/academic/#fall
- [ ] Learn about your engineering program

August
- [ ] Finalize your fall schedule
- [ ] Participate in Wolfpack Welcome Week
  newstudents.dasa.ncsu.edu/winterwelcomeweek/
- [ ] Begin the first day of the fall semester
- [ ] Join a student organization
  students.engr.ncsu.edu/orgs
- [ ] Apply for Alternative Service Break

September
- [ ] Apply for externships
  careers.ncsu.edu
- [ ] Attend a University Tutorial Center orientation

October
- [ ] Apply for an internship and/or Co-op
  careers.ncsu.edu
- [ ] Participate in an externship
- [ ] Seek academic advising for spring
- [ ] Pre-register for spring classes
- [ ] Drop/Revision Deadline (if necessary)
  studentservices.ncsu.edu/calendars/academic

November
- [ ] Prepare for final exams

December
- [ ] Apply for an on-campus job
- [ ] Apply to the Engineering Ambassadors team
- [ ] Apply for College of Engineering scholarships
  www.engr.ncsu.edu/academics/undergrad/scholarships

NO CLASSES: FALL BREAK

NO CLASSES: THANKSGIVING

NO CLASSES: LABOR DAY
KEY TERMS

AUDIT: a grading option that allows you to sit in on a class; results in an AU (audit) or NR (no recognition) grade on your transcript; **under no circumstance will an audited course count toward any degree requirement.**

C WALL: courses identified as “C wall” must be completed with a C or better.

C- WALL: courses identified as “C minus wall” must be completed with a C- or better.

CENSUS DATE: last day to add a course (requires instructor permission). Last day for tuition refunds due to dropping a course or changing from credit to audit. Last day for undergraduate students to drop below 12 hours or to drop a course without a W grade. This date is the 10th day of classes for fall/spring and 3rd day of classes in summer sessions.

CHANGE OF DEGREE AUDIT (CODA): the process by which a student applies to change his/her major.

COREQUISITE: a course that must be taken simultaneously (or prior to) another course; for example, E 115 and MA 141 are corequisites of CSC 111 (Python), meaning that a student must take E 115 and MA 141 either concurrently or prior to starting CSC 111.

COURSE/SECTION RESTRICTIONS: criteria limiting who can enroll in certain classes/sections of a course; for example, STS 302H in the fall semester is restricted to Benjamin Franklin Scholars. Click on the word “restriction” to see how the course is restricted.

CREDIT HOUR: a measure of the academic “value” of a course; to be full time, a student must be enrolled in 12 credit hours per semester; to be in compliance with the university’s Progress Toward Degree policy, a student must complete a minimum of 24 credit hours toward his/her degree each academic year.

CREDIT ONLY: a grading option that allows you to earn satisfactory/unsatisfactory (S/U) instead of a letter grade; courses taken as credit only do not affect your NC State GPA. Within engineering curricula, only E 115 and HES (physical education) courses may be taken as credit only and still count toward degree requirements. **Consult an advisor before switching to credit-only grading.**

DEGREE AUDIT: a personal record of your progress toward graduation; the listing includes courses that are complete (denoted with a green check), in progress (denoted with a yellow diamond), planned (denoted with a blue star) and not yet complete (denoted with a red x).

ENGINEERING AMBASSADOR (EA): upper-class engineering students who support the College of Engineering. Ambassadors may serve as co-presenters at College information sessions or host at the College’s Explore Engineering; all sections of E 101 will have Engineering Ambassadors serving as teaching assistants (TA).

ENROLLMENT DATE: the earliest date and time that a student may register for courses for the upcoming semester(s); plan to meet with your advisor prior to your enrollment date (listed in MyPack portal).

GENERAL EDUCATION PROGRAM (GEP): courses that fulfill university graduation requirements; categories include math, science, humanities, social sciences, interdisciplinary perspectives, English composition, foreign language, and health/exercise sciences (PE). A summary of GEP options available to engineering students can be found in this booklet and online.

MYPACK PORTAL: the online student information system where you can monitor your classes, grades, progress toward degree, financial aid, parental access, etc. Access MyPack portal at [www.ncsu.edu](http://www.ncsu.edu) by clicking on the red “Resources” tab at the top of the page.

PREREQUISITE: a course that must be taken prior to another course; for example, MA 141 is a prerequisite to MA 241, meaning that a student must have already taken or have credit for MA 141 prior to starting MA 241.

WAITLIST: a list of students waiting to gain entrance into a course; there is no guarantee of enrollment in the course.

WITHDRAWAL: withdrawing/dropping a course after census date will result in a “W” reported on transcript.

CHANGE OF DEGREE AUDIT (CODA)

Change of Degree Audit (CODA) is the process by which an NC State student officially joins a degree-seeking engineering major. Students earning the minimum grades listed below and meeting other EFY program and University requirements are guaranteed a seat in one of the engineering departments at NC State. To determine if you are CODA’ed, after you have been assigned an advisor in MyPack portal, go to your degree audit. If your degree audit plan is a B.S. in engineering, you are CODA’ed!

OFFICIALLY JOINING A DEPARTMENT

STEP 1: COMPLETE REQUIRED COURSES

</tr>
</tbody>
</table>

STEP 2: APPLY FOR A SEAT IN A DEPARTMENT

Those of you who have not met the CODA requirements will be designated as Engineering First Year (EFY) in your degree audits. If this is the case, you:

- Must take the required CODA courses your first semester.
  - Transfer students who need to fulfill the ENG 101 requirement, please consult the guidelines from the First-Year Writing Program at english.chass.ncsu.edu/undergraduate/first_year_writing/fy_transfer_credit_guidelines.php
  - Transfer students are NOT required to take E 102 to be eligible to CODA.
- Are not yet eligible to take certain higher level engineering/computer science courses in your degree program
- Are not yet eligible for the co-op program
- Are not yet eligible for departmental scholarships

www.engr.ncsu.edu/academics/undergrad/coda
ENGINEERING | E 101, E 102 AND E 115

E 101 – INTRO TO ENGINEERING AND PROBLEM SOLVING
E 102 – ENGINEERING IN THE 21st CENTURY

Introduction to Engineering and Engineering in the 21st Century are designed for freshmen only. Unless you have been instructed otherwise, do not register for either E 101 or E 102. To meet the E 101 requirement within your engineering degree plan, you may take E 201 - Engineering Transfer Student Success or request that an approved substitute course be accepted. To meet the E 102 requirement within your engineering degree plan, any transfer credit that could meet the General Education Program (GEP) requirement for Interdisciplinary Perspectives will suffice. You may have been pre-enrolled in E 201 if you lacked an approved substitute course for E 101. If this course does not fit your schedule, please discuss your options with the College of Engineering Transfer Coordinator. Please note that all transfer students may and are encouraged to enroll in E 201 regardless of available approved substitute credit. Anyone lacking an approved substitute course for E 102 must plan to take at least 2 credit hours of Interdisciplinary Perspectives from the approved GEP list prior to anticipated graduation. See below for more details.

catalog.ncsu.edu/undergraduate/coursedescriptions/e

E 115 – INTRO TO COMPUTING ENVIRONMENTS

Introduction to Computing Environments is a 1 credit hour course for all engineering students. There is a non transferrable credit for E 115; the course must be taken at NC State. The course is graded as credit-only (S-satisfactory/U-unsatisfactory), also known as pass/fail. Please note that E 115 is a corequisite for CSC and ECE courses. Ideally, all engineering transfer students will enroll in E 115 this fall. The E 115 website provides useful information including details about earning credit-by-exam for E 115.

ncsu.orgsync.com/org/e115

The College of Engineering offers the following course specifically for new transfer students.

- E 201 sections 001 and 002 Engineering Transfer Student Success

This 8-week course will provide an overview of the NC State University policies and procedures, organizations, and resources available for enhancing the academic success of new transfer students in the College of Engineering. Lectures and discussion from departmental representatives will focus on requirements and availability for financial aid, cooperative education, career services, and campus student organizations. Emphasis will be placed on acclimating students through teamwork and academic achievement within the first year of transfer.
GENERAL EDUCATION PROGRAM (GEP)

Each NC State student must complete the General Education Program (GEP) requirements. These courses are designed to offer graduates the opportunity to experience diverse and integrative disciplinary perspectives. GEP courses enhance intellectual engagement and prepare you for lifelong learning and the demands of professional careers. NC State’s GEP is divided into several categories. However, within engineering degrees, courses within certain categories will already be selected. When College of Engineering faculty/staff refer to “GEP courses,” they are referring to the subsection of the GEP for which engineering students have choices — a total of seven courses, labeled below ( ). Students earning an AA/AS from a NC CC will have these requirements met through their degree so long as they meet CAA criteria. Students earning an AE from a NC CC will have many of these requirements met through their degree. We kindly request that all transfer students remain patient over the summer as final transcripts are received, credit is loaded and degree audits updated. Please note, any departmental corequisites within the GEPs (ex. ethics) are not fulfilled by an AA/AS through the CAA.

COLLEGE OF ENGINEERING GEP REQUIREMENTS

NC STATE GEP REQUIREMENTS
To help you select your GEP courses, the College of Engineering has prepared a form.
College of Engineering GEP Summary: [go.ncsu.edu/course_catalog](go.ncsu.edu/course_catalog)
Admissions compiles a comprehensive list of all transfer courses taken, how they transfer to NC State, and your transfer GPA in a document referred to as a Transfer Evaluation Summary (TES). The TES is accessible to you through MyPack portal while you are a student. The Preliminary Advanced Standing at the end of the TES summarizes the courses transferring to NC State (not necessarily to degree). Also, the total hours on the last page classifies you as FR, SO, JR or SR.
FOREIGN LANGUAGE REQUIREMENT

All students at NC State must demonstrate competency at the Elementary II level in a foreign language (FL* 102) as a requirement for graduation.

Methods of demonstrating proficiency:

- At least 2 years of high school study of the same language with a C or better
- NC State Foreign Language Placement Test
  - Spanish, French, Latin, and German - Language and Computer Labs (building code: LAU)
  - Other languages – contact Department of Foreign Languages and Literatures
- Transferable foreign language credit from another institution
- Advanced Placement (AP) scores
- Non-native English speakers

NOTE: Students who do not meet the proficiency requirement must take a placement test to determine where they will start at NC State if they do not wish to begin at the introductory level of a language (FL 101). If a non-native English speaker’s degree audit still does not show Foreign Language Proficiency credit midway through the fall semester, the student should contact Dr. Dudley Marchi. In your correspondence, please include your full name, student ID #, major, language of fluency and how it was acquired.

Dr. Dudley Marchi
319 Withers Hall
919.515.9283
dmm@ncsu.edu

oucc.dasa.ncsu.edu/foreign-language-proficiency

HEALTH AND EXERCISE SCIENCE REQUIREMENT

All students at NC State must complete two health and exercise science courses:

1. Fitness and Wellness (1 credit hour)
   - Choose from 100-level HESF courses
   - Examples include Fitness Walking (102) and Run Conditioning (107)

2. HES_ Elective (1 credit hour)
   - Can be any HES_ course (100-level or 200-level)
   - Transfer PE *** can fulfill this requirement

NOTE: HES_ courses may be taken credit-only (S/U)

oucc.dasa.ncsu.edu/gep-category-health-and-exercise-studies
RESOURCES
DEGREE AUDIT

All degree seeking students at NC State have a degree audit within MyPack portal. The degree audit provides a list of degree requirements. The green check marks indicate completed requirements for your degree. Therefore, you should use your degree audit to verify your transfer and AP/IB credits. Further, the list of required courses within your degree audit includes links to course descriptions, prerequisites, class restrictions, requirements, etc. MyPack portal tutorials can be found online.

studentservices.ncsu.edu/your-degree/degree-planning

POLICIES

PROGRESS TOWARD DEGREE

As part of meeting progress toward degree (PTD) requirements, students:

- Must be in a degree-granting major before entering their fifth term (fall or spring).
- Are encouraged to maintain continuous enrollment in a minimum of 15 hours toward a degree every fall and spring term.

Satisfactory Academic Progress (SAP) will be evaluated for all students, including part-time students, at the end of each academic year (May). SAP is measured by meeting the following three standards:

- Pace of Completion: Students must pass at least 2/3 of all hours attempted each academic year (summer through spring). Attempted hours include all hours enrolled for credit as of census date plus hours added after census. Hours dropped after census, withdrawn or excluded through Grade Exclusion also count as attempted hours.
- Maximum Timeframe: Students must graduate before attempting more than 150 percent of the hours required for their degree program (ex. 180 hours for a 120 hour degree program).
- Degree Status: Students must have an academic standing that allows for continuous enrollment.

studentservices.ncsu.edu/your-degree/academic-progress

PLAN OF WORK

As part of the progress toward degree requirements set forth, you may be asked by your advisor to create a plan of work. All students are strongly encouraged to create this plan.

- MyPack portal → Student Center → Pack Planner
- Plan remaining semesters’ schedules before meeting with your advisor
- Target date for Plan of Work → October

studentservices.ncsu.edu/your-degree/degree-planning/pack-planner
POLICIES (CONT.)

COLLEGE OF ENGINEERING 48 HOUR RULE

The College of Engineering, in an effort to protect the fidelity of its engineering degrees, requires that graduates must take 48 of the final 60 hours within their degree plans within the College of Engineering at NC State. If there is a chance that you will not meet this requirement, develop a plan with your advisor that assures that you meet this requirement.

- There is no limit to the number of transfer hours you may bring to NC State.
- Transfer hours may be counted toward the 140 hours allowed before the Cashiers Office applies a tuition surcharge.
- There is an appeal process. College of Engineering advisors are happy to provide a letter explaining that transfer students are making progress toward their degrees and that the excess hours are a result of transfer credits rather than “loitering” at NC State.

REVERSE TRANSFER PROGRAM

NC State participates in this program between the University of North Carolina System and the North Carolina Community College System, which means:

- Students who have completed the AA/AS and who meet the fine print detailed within the CAA are eligible to fulfill NC State’s GEP requirements
- Students must opt in when first logging into MyPack Portal
- Remaining courses to complete AA/AS must be taken within one year following transfer to NC State

northcarolina.edu/reversetransfer

RESOURCES FOR VETERANS

NC State has a rich military history with long-standing traditions and appreciates the dedication and service of our country’s veterans and active-duty military families. Rated as a military-friendly university, NC State continuously strives to provide a campus community that is inclusive and welcoming for our military population. The Veterans’ Education Office in Registration and Records supports our military and veteran community, including students, faculty, and staff at NC State. The office administers VA Educational benefits and provides a variety of services.

- Military and Veteran Resource Center in Witherspoon Student Center provides a one-stop shop for information, academic support, housing, healthcare, and connecting to campus resources and others from similar backgrounds.
- Post 9/11 GI Bill
  - Facilitate certification requests
  - GI Bill users in degree-seeking programs granted priority registration for courses starting Fall 2017
- Tuition assistance through Yellow Ribbon program.
- Residency for military personnel and dependents or for tuition purposes

registrar.ncsu.edu/veterans
LIVING AND LEARNING VILLAGES

Live, Learn and Achieve

Villages are interest-based communities that engage students both inside and outside the classroom through partnerships. They enhance your learning experience by supporting and integrating students’ academic and personal development. A rich variety of villages allows you to engage in active and collaborative learning with peers, faculty and staff. Formal and informal interactions foster a sense of community, creating an intellectually stimulating environment that sets the stage for your learning and success. These apartment-style villages are geared toward upperclassmen living on campus.

- Second Year Transitions and Transfer Experience (S.T.A.T.E.) Village
- Albright Entrepreneurs Village

Visit housing.dasa.ncsu.edu/villages to get the full list.

CSLEPS: ETHICALLY LEADING AND SERVING

The Center for Student Leadership, Ethics, and Public Service (CSLEPS) provides unique learning experiences that embody the value of leadership, service, responsible citizenship, and ethics. Programs include:

- Alternative Service Break
- Service NC State
- LeaderShape Institute
- Leadership Development Services
- Visionary Leadership Certificate
- Social Entrepreneurship Programs
- Leader of the Pack

csleps.dasa.ncsu.edu
