NC STATE UNIVERSITY

ENGINEERING

NORTH CAROLINA COMMUNITY COLLEGE

TRANSFER GUIDE

Located in Raleigh, North Carolina, NC State University's College of Engineering is a leading research, teaching and outreach engineering and computer science college offering 18 bachelor's, 21 master's and 13 doctoral degree programs. Annual enrollment exceeds 10,000 students, with more than 6,000 undergraduates and nearly 3,000 graduate students. The College also offers 16 online engineering master's degrees.

CENTENNIAL CAMPUS

THANK YOU!

We appreciate your interest in pursuing a degree in engineering or computer science and are ready to help you accomplish your goal. Each year, more than 25 percent of the students receiving engineering degrees from NC State University began their education at another institution. You will find information on College of Engineering programs, curricula, student organizations, and much more by browsing the website at **www.engr.ncsu.edu**.

We would like to invite you, your parents and your friends to attend either the College of Engineering Open House held in the spring or the University Open House held in the fall. Both are wonderful opportunities to meet with faculty, staff and students in the College of Engineering and to tour our teaching and research facilities.

THE BASICS

Make sure you're on track to transfer to NC State. As you turn the following pages, you'll find information on which courses are required, application deadlines, and GPA information for your intended area of study. We're here to help with a successful transfer to the university.

WHAT YOU NEED

Since transfer admissions into the College are very competitive, meeting the eligibility requirements only guarantees that a transfer application may be considered; it does **not** guarantee admission. Students who are successful in admission often have grades well above these minimums.

For a comprehensive list of North Carolina community college course equivalencies, visit **http://bit.ly/2c75c3j**.

The NC State course number is written in **red** for your reference; North Carolina community college course numbers are written in **bold**. A course taken at another institution must be equivalent to the **exact** NC State course and completed with a grade of C- or better. If NC State courses are taken, the overall NC State GPA must be at least a 2.0. Core courses (chemistry, calculus and physics), also known as C-wall courses, require at least a C.

1. 30 credit hours or more of transferable college-level courses
2. 3.0 or higher cumulative GPA*
3. Minimum 4 credit hours of English composition, 4 credits **ENG 101** (**ENG 111** in combination with **ENG 112**, **ENG 113**, or **ENG 114** to fulfill the English requirement (total ≥ 4 credits))
4. College chemistry course with lab, 4 credits
5. **CH 101 + 102** (**CHM 135, 151 or 131 and 131 A**)
6. Calculus I, 4 credits **MA 141** (**MA 271**)
7. Calculus II, 4 credits **MA 241** (**MA 272**)
8. Minimum 2.5 math GPA over last two math courses at Calculus I **MA 141** level or higher (**MAT 271**)
9. Calculus-based Physics I with lab,
10. 4 credits **PY 205** and **PY 206** (**PHY 251**)

**The requirements above are minimums for eligibility to apply for transfer admission into the College of Engineering. Students who are successful in admission often have grades well above these minimums. As an example, the middle 50% of successful applicants in recent years have had GPA's from 3.4-3.8. Due to high demand, some programs are much more competitive, and preference is given to higher GPAs. In some cases, applicants with 3.0 ≤ GPA < 3.5 may increase their competitiveness with strong performances in additional technical coursework (e.g., Calculus III, Physics II, Engineering Statics, Chemistry II, Organic Chemistry, etc.). To select the appropriate courses, refer to your intended NC State engineering degree requirements.*

WHAT'S NEXT?

STEP 1 — Talk to your North Carolina community college advisor. Visit **ouccc.dasa.ncsu.edu/engineering-coe** to learn more.

STEP 2 — Plan ahead and apply early. **www.admissions.ncsu.edu/apply**

STEP 3 — If you still have questions, send an email to an NC State engineering advisor at **engineering@ncsu.edu**.

TRANSFER APPLICATION DEADLINE: February 15th (April 15th notification)

INTERNATIONAL TRANSFER APPLICATION DEADLINE: January 15th (rolling notification)

NOTE: *A pending decision for transfer applicants will require all official final transcripts by June 1 including grades for completed spring coursework. Those applicants will receive a decision by June 15. Summer coursework in-progress cannot be considered to meet admission requirements for the fall semester. The College of Engineering does not offer spring transfer admissions.*

PLANNING FOR THE FUTURE

NC State offers 18 bachelor's degree programs.

WHAT ARE MY DEGREE OPTIONS?

DEPARTMENT	DEGREE	CONCENTRATION *(optional)*	SPECIALIZATION
BIOLOGICAL AND AGRICULTURAL ENGINEERING (BAE)	Biological Engineering (BE)	▸ Agricultural ▸ Bioprocess ▸ Ecological ▸ Environmental	—
BIOMEDICAL ENGINEERING (BME)	Biomedical Engineering (BME)	—	Biomaterials, Bioinstrumentation, Biomechanics
CHEMICAL AND BIOMOLECULAR ENGINEERING (CBE)	Chemical Engineering (CHE)	▸ Biomanufacturing Science ▸ Biomolecular ▸ Honors ▸ Nanoscience ▸ Sustainable Engineering, Energy and Environment	—
CIVIL, CONSTRUCTION, AND ENVIRONMENTAL ENGINEERING (CCEE)	Civil Engineering (CE) Construction Engineering (CON) *(concentration required)* Environmental Engineering (ENE)	— ▸ General Construction ▸ Mechanical Construction —	Civil - Coastal Engineering and Water Resources, Computing and Systems, Construction Engineering, Environmental Engineering, Geotechnical Engineering, Structural Engineering and Transportation Engineering
COMPUTER SCIENCE (CSC)	Computer Science (CSC)	▸ Game Development	—
ELECTRICAL AND COMPUTER ENGINEERING (ECE)	Computer Engineering (CPE) Electrical Engineering (EE)	— ▸ Renewable Electric Energy Systems	—
FOREST BIOMATERIALS (FB)	Paper Science and Engineering (PSE)	—	—
INDUSTRIAL AND SYSTEMS ENGINEERING (ISE)	Industrial Engineering (IE)	—	Health Systems (Certificate Program)
MATERIALS SCIENCE AND ENGINEERING (MSE)	Materials Science and Engineering (MSE)	▸ Biomaterials ▸ Nanomaterials	—

WHAT CAN I TAKE NOW?

Many courses at your college transfer to NC State. Explore your course options.

The university also requires students to fulfill General Education Program requirements.

ENGINEERING DEGREE REQUIREMENTS

The North Carolina Community College System offers a number of courses that fulfill requirements within the NC State engineering curricula. Follow these two steps to create your own personalized community college/NC State curriculum:

- Find your intended semester-by-semester plan at **https://oucc.dasa.ncsu.edu/engineering-coe**
- Use the comprehensive list of North Carolina community college/NC State equivalencies at **http://bit.ly/2c75c3j** to select courses that fulfill degree requirements within your semester-by-semester plan.

Below is a list of North Carolina community college courses commonly selected by transfer students to fulfill various degree requirements. Only North Carolina community college options are listed; additional options may be available at NC State. On lines marked with a red arrow (›), students choose one course.

**Universal General Education Transfer Component (UGETC) courses (see FAQs)*

NC STATE UNIVERSITY REQUIREMENTS

Each NC State student must complete the General Education Program (GEP) requirements. These courses are designed to offer graduates the opportunity to experience diverse and integrative disciplinary perspectives. GEP courses enhance intellectual engagement and prepare students for lifelong learning and the demands of professional careers.

NC State's GEP is divided into several categories. However, within engineering degrees, courses within certain categories will already be selected. When College of Engineering faculty/staff refer to "GEP courses," they are referring to the sub-section of the GEP wherein engineering students have choices — a total of seven courses, labeled on the following page (■).

Along with those seven courses, engineering students must also fulfill two corequisites — US Diversity (USD) and Global Knowledge (GK). The corequisites can be fulfilled by taking courses within the broad GEP categories designated as USD or GK.

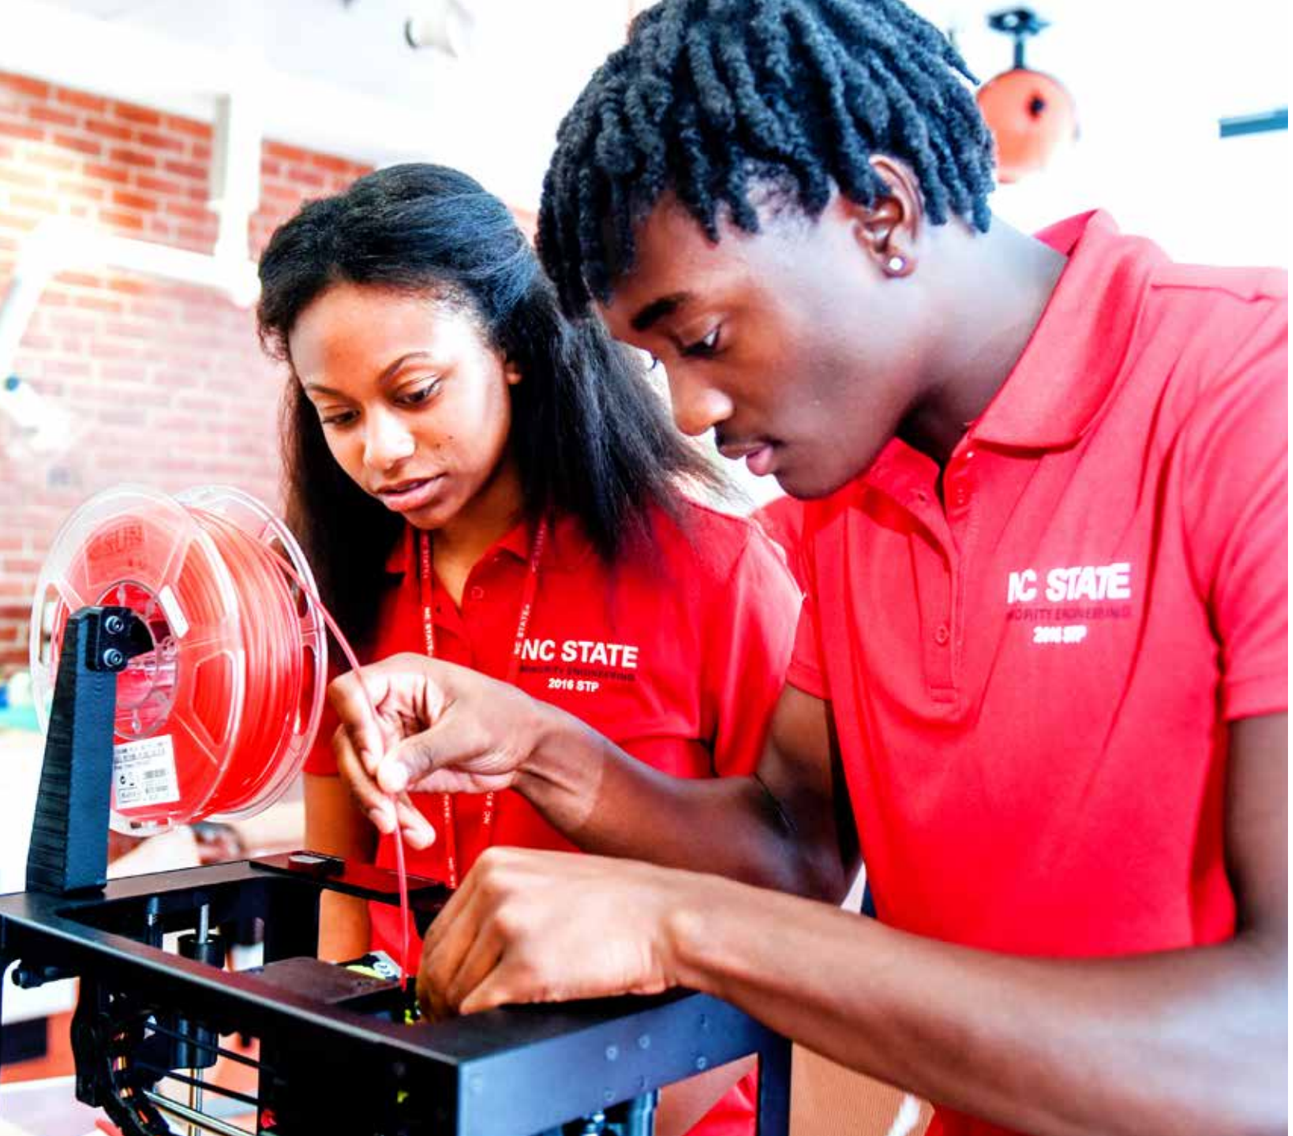
REMINDER:

Throughout this section, keep in mind that NC State course numbers will be in **red**. North Carolina community college course numbers will be in **bold**. Also please note that Universal General Education Transfer Component (UGETC) courses are denoted with an asterisk (see FAQs).

2 Mathematical Sciences	MA 141 MA 241	*Engineering students use these courses to fulfill GEP requirements*
2 Natural Sciences	CH 101 PY 205	
First-Year Writing Program	ENG 101	
2 Health and Exercise Studies	1. _____ 2. _____	*must be 100-level*
■ 2 Humanities	■ 1. _____ ■ 2. _____	*(different disciplines)*
2 Social Sciences	■ 1. Economics ■ 2. _____	*(EC 201, EC 205, ARE 201)* *(Discipline other than economics)*
2 Interdisciplinary Perspectives	■ 1. _____ ■ 2. _____	
1 Additional Breadth	■ 1. _____	*can be humanities, social science or visual/performing art*
Corequisites (Not Additional Courses)		
US Diversity (USD)	☐	
Global Knowledge (GK)	☐	
(some engineering curricula have additional corequisites)	☐	

COLLEGE OF ENGINEERING GEP REQUIREMENTS

NC STATE GEP REQUIREMENTS



GEP REQUIREMENTS - COURSE OPTIONS

2 Health and Exercise Sciences

1. PED 110, 115, 120, 154, or 155
2. PED 111, 112, 113, 114, 116, 118, 119, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 156, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 210, 211, 212, 214, 220, 240, 253, 260, 262, 270, or 276

2 Humanities *(different disciplines)*

Select two from different disciplines: ENG 231*, ENG 232*, ENG 233, ENG 241, ENG 242, ENG 243, ENG 251GK, ENG 252GK, ENG 273GK, HIS 111*GK, HIS 112*, HIS 131*, HIS 132*, HIS 165GK, HIS 212GK, HIS 236 PHI 215*, PHI 220, PHI 240*, REL 110GK, REL 211GK, REL 212GK

2 Social Sciences *(different disciplines)*

All engineering students must take ECO 251 **and one of the following:** ANT 220GK, ANT 240GK, COM 120, POL 120*, POL 130, POL 210GK, POL 220GK, PSY 150*, PSY 237*, PSY 241*, SOC 210*, SOC 213USD, SOC 220USD, SOC 230USD, SOC 240, SOC 242

2 Interdisciplinary Perspectives

ENG 275, HUM 110, BUS 110, PHI 250

1 Additional Breadth

Select from humanities listings above, social science listings above, or ECO 252, COM 231, MUS 110*GK

Selecting courses above designated as USD or GK also fulfills the respective corequisite. Please note that some engineering curricula also have an ethics corequisite. These ethics courses must be taken at NC State with the following exceptions: PHI 240 (humanities) will fulfill the ethics corequisite for MSE and HUM 110 (interdisciplinary perspectives) will fulfill the ethics corequisite for IE.
Please visit **http://bit.ly/2c75c3j** for a complete list of course equivalencies.

NOTE: Universal General Education Transfer Component (UGETC) courses are denoted with an asterisk (see FAQs).

FREQUENTLY ASKED QUESTIONS

FREQUENTLY ASKED QUESTIONS

TRANSFER REQUIREMENTS

1. **Does meeting the transfer requirements guarantee admission into the College of Engineering?**
   No. Admission to the College of Engineering is very competitive. The transfer requirements should be viewed as the minimum standard by which an applicant becomes eligible for review. Prospective students should always try to achieve the highest possible GPA to be as competitive as possible in the admissions process.

2. **As a transfer applicant, do I need to take the ACT or SAT?**
   No. ACT/SAT scores are not required for transfer applicants.

3. **How is my transfer GPA calculated?**
   College-level work must be completed with a C- or better to be considered for transfer credit. Work completed in technical programs is not considered for transfer credit or GPA calculation. The Office of Admissions at NC State will calculate a transfer GPA comprised of all transferable courses attempted, neglecting +/- modifiers (ex. B credit awarded instead of B- credit) in the calculations. Courses repeated at previous institutions are calculated with the original grades earned. The Office of Admissions at NC State will exclude the two lowest grades below a C when calculating the overall transfer GPA from all colleges attended outside of NC State. Please note that +/- modifiers remain on the student record. While C- grades are sufficient for NC State transfer credit, keep in mind that C- grades may not be sufficient to fulfill certain engineering degree requirements.

4. **Can AP/IB credit be used to satisfy the 30 credit hour minimum requirement to be eligible for transfer?**
   No. Only courses taken at another institution will contribute to the 30 credit hour minimum required for eligibility to transfer.

FREQUENTLY ASKED QUESTIONS

TRANSFER CREDIT

1. **Can I receive AP/IB credit as a transfer student?**
   Yes. All AP or IB scores should be sent directly from the testing agency and, if admitted, NC State credit will be awarded according to the charts provided at **admissions.ncsu.edu/apply/credit-opportunities**.

2. **Does work experience or military experience count as transfer credit?**
   No. Neither work experience nor military experience counts toward transfer credits.

3. **I have coursework outside the North Carolina Community College System. How will it transfer?**The Office of Admissions maintains a transfer equivalency database where students may map their previous coursework over to NC State course numbers: **www.acs.ncsu.edu/scripts/ugadmiss/trnsfcrs.pl**

4. **Can I transfer credit for E 115?**
   No. This course must be taken at NC State since it is an introduction to our computing and networking system.

5. **Can I transfer credit for E 101?**
   Yes. While transfer credit for E 101 is not required for admission, EGR 150 from the North Carolina Community College System can fulfill the E 101 engineering degree requirement for graduation.

6. **How long will I be at NC State?**
   Each engineering program is comprised of a critical path of engineering courses. The prerequisite structure for these courses and semester-specific course availability determine the length of stay at NC State.

FREQUENTLY ASKED QUESTIONS

ATTENDING NC STATE AS A NON-DEGREE STUDENT

1. **Can I start at NC State before officially transferring into an engineering program?**
   NC State offers a non-degree studies (NDS) program (**www.ncsu.edu/nds**). NDS students are limited to two courses per semester and enrollment is not guaranteed; only if space remains in classes are NDS students permitted to enroll, pending class and course permissions/restrictions.

2. **Should I attend NC State as a non-degree studies (NDS) student?**
   There are advantages and disadvantages. An advantage might be an opportunity to take an engineering course that serves as a prerequisite for a number of other engineering courses. (ex. a student who is able to enroll in CHE 205 as an NDS student would meet the prerequisite to enroll in CHE 225 the following semester. If accepted as a degree-seeking chemical engineering student for the fall, this strategy would enable the student to finish out the chemical engineering degree over the following four semesters as a degree-seeking student. If this student was not able to acquire CHE 205 and CHE 225 prior to becoming a degree-seeking chemical engineering student, the student would stay at NC State for six semesters as a degree-seeking student).

   A disadvantage of taking courses at NC State as an NDS student is that this would be starting a brand new GPA that is highly visible to engineering departments. It is not unusual for some older transfer students to have some lower grades on their academic record. Hopefully, these grades are overshadowed by a stronger recent performance (at least so much so that the transfer GPA is greater than 3.0). However, should a prospective transfer student stumble in an NC State course while taking it as an NDS student, it is highly unlikely that there would be enough NDS coursework to overshadow the poor grade. All caution should be taken when choosing to enroll as an NDS student. Please see the NDS web page for details on enrolling and NDS policies.

FREQUENTLY ASKED QUESTIONS

COMPREHENSIVE ARTICULATION AGREEMENT

1. **What is a UGETC course?**
   Universal General Education Transfer Component (UGETC) courses are courses offered at every North Carolina community college that are also accepted as transfer credit at every UNC system institution. The courses listed in this guide are all transferrable to NC State, but no guarantee can be made that they are transferrable to other institutions. UGETC courses are marked to aid you in planning should you consider other UNC system institutions.

2. **Should I finish my Associate in Arts or Associate in Science degree?**
   Each prospective transfer student should make a choice based on their own situation. The advantage of completing an Associate in Arts (AA) or Associate in Science (AS) at a North Carolina community college is that NC State will award credit as described by the Comprehensive Articulation Agreement (CAA). Specifically, credit is awarded for all General Education Program (GEP) courses, regardless of how/if the transferred coursework fills the specific NC State requirements (ex. humanities, social sciences, etc.). Completing GEP coursework is unlikely to reduce the overall time spent at NC State; see **FAQ: How long will I be at NC State?** Also, it is important to note that while NC State GEP requirements may be considered complete, engineering degree requirements still remain. (ex. NC State requires that all graduates have two social sciences. The College of Engineering requires that all graduates have economics (ECO 251 at a North Carolina community college). Therefore, one of the social sciences must be economics for engineering students). Students transferring prior to completing an AA/AS may be eligible to earn their degree post-transfer through the reverse transfer program: **admissions.ncsu.edu/apply/admission-review/transfer-admission-review-process/north-carolina-community-college-students**

3. **What is the fine print of the Comprehensive Articulation Agreement (CAA)?**
   No more than 14 credit hours of the AA/AS from the North Carolina community college system may originate outside of the North Carolina Community College or UNC Systems. The North Carolina community college transcript must show that the AA/AS was conferred.
