

MATH | MA 141, MA 241 AND MA 242

The Department of Mathematics requires that all students demonstrate their math proficiency before being allowed to enroll in a math course at NC State. Students may demonstrate proficiency with the following:

- ▶ The SAT Math Level Two Subject Test
- ▶ A score of 2 or better on the College Board AP Calculus exam
- ▶ Transferable math credits that serve as the necessary prerequisites
- ▶ The NC State Placement test (available online)

Math credit and placement information can be found in the chart below. If you do not have a math indicator, you will not be allowed to register for a math course, which could result in a math placement not representative of your ability. The delay may also impede the formation of your fall schedule.
