

2020 Wilson Engineering Camps

Elementary and Middle School Camps

June 22-26, 2020

LOCATION: Wilson Community College

Teacher Application

The NC State College of Engineering/The Engineering Place in partnership with Wilson Community College and the Upper Coastal Plain Learning Council will be offering week-long, non-residential summer day camps for elementary and middle school students. The camps will be led by area staff in collaboration with *The Engineering Place* from NC State University.

Opportunity Overview for Engineering Summer Programs Teacher Team Leader

We are very pleased to offer this opportunity for elementary, middle, high school teachers and post-secondary instructors. The opportunity involves working with a team of approximately 12 students to help them solve real-world challenges presented in the field of engineering.

Applicants should have a science, math or technical education background or be interested in learning how to use engineering to help make academic connections in their classrooms. Candidates should be highly motivated and enthusiastic individuals who are interested in hands-on activities. In addition, these teachers should be interested in learning about ways to integrate STEM into their classroom instruction.

We are not limiting teachers to selecting camps based solely on the grade levels they currently teach.

Stipend rates are **\$1000 for teachers and \$600 for teacher** assistants for the week which covers the time spent in the camps and in training. Daily camp hours run approximately 8:00 am until 4:00 pm. Additional time may be required before and after the daily camp sessions.

Required Training Dates

- Regional NCSU Teacher Training: Saturday, May 2, 2020 (8:30 a.m.–5:00 p.m.) at Daniels Hall on the campus of NC State University. Lunch will be provided.
- Wilson Engineering Staff Camp Prep: Saturday, May 16, 2020 (8:30 a.m.–4:00 p.m.) Lunch will be provided. Saturday, June 20, 2020 (9:00 a.m.–12:00 p.m.) at Wilson Community College Eagles Business Center..

Gender: Female / Male (circle one)

Which group of campers would you prefer working with (elementary or middle) and what qualifies you to work with that age group?

Why would you like to be part of the Wilson Engineering Camp 2020?

I will be available to attend regional in-service training at NC State University, which is scheduled on Saturday, May 2nd , 2020. I will also be present for pre-camp meetings and in-service training at Wilson Community College on the dates specified.

YES

NO

School Name: _____

School District: _____

Years of teaching experience: _____

Current grade level: _____

Years at Current Assignment: _____

Principal's Name: _____

Principal's phone number: _____

In this space, please provide any other relevant information you think would help us determine your qualifications to teach at the summer Engineering Camps:

I will present Professional Development to the staff at my school and provide photos with sign in sheets of attendance.

It is important to make contact with your principal early in the year. Share the dates and contact information with Camp Director.
